

# How to install necessary packages in RStudio

*Devarshi Pancholi*

*7/25/2019*

## ***Installing the package using R commands:***

To install a package which you don't already have, put the following line of code with respective package name in RStudio Console:

Note: Here, we will install a package called “ggplot2” which is used for graphical representation of data.

```
install.packages("ggplot2", repos = "http://cran.us.r-project.org")
```

```
##
```

```
## The downloaded binary packages are in
```

```
## /var/folders/z9/jcb38mfx535dwq_2y9k_jlcc0000gn/T//RtmpLn0Acu/downloaded_packages
```
